1. Attached is a copy of report ^{MGLA} 1836 concern-
ing Usage. We have made no attempt to run traces
on the persons mentioned since the job is formidable
enough to have delayed the forwarding of the memo-
randum by some weeks. This will be done eventually,
and any information of real value to you will, of
course, be forwarded.

2. The whole problem is under review and
discussion here. We will keep you informed.
